Empowering Communities Through Opportunities

Independent Living and Life Skills

A 10-week class with a focus on developing skills in personal development, money management and budgeting, housing and transportation, career exploration, educational and training opportunities, and planning for the future.

OUR FOCUS

This program is designed to assist youth to develop the skills they need when making the transition into independent living. It is also meant to assist all youths reach their goals as they age into adulthood by providing a solid foundation and opportunity to live independent, successful, and confident lives. This program will help connect the participants with information and services that can empower them to make informed decisions about their future.

Students will be supported by positive relationships with trusted instructors who can provide them with the services needed to help improve their life skills, their knowledge and lead them to greater self-sufficiency. Through this program we will help participants increase their stability and self-confidence as they prepare for their future and understand what it takes to live independently.
